

CASE STUDY: LEEDS BRADFORD INTERNATIONAL AIRPORT

"Our Mission is to be the best performing regional airport, together we are dedicated to quality, service, people and choice"
Leeds Bradford Airport Mission Statement

COMCEN PROVIDED

- CONSULTANCY
- DESIGN
- PRODUCT
- INSTALLATION

Serving over 70 business and leisure destinations across four continents, Leeds Bradford Airport continuously plays host to travellers with high expectations.

The opening of the airport's Premier Lounge offers four separate hospitality zones; business, relaxation, refreshment and a self contained meeting room. Guests can choose from a selection of fine wines and champagnes, or make use of the executive meeting suite, with business facilities for up to 20 delegates.

Comcen Technology were proud to be partners in this ambitious venture. Comcen supplied *consultancy, design, product* and *installation* services for the Audio Visual elements of the refit. This included provision of two large format, flat panel displays and a multi-zone, multi-source, sound system.

As with all our projects, Comcen sought to minimise disruption and downtime. A series of time-critical jobs, including installation of forty speakers in five independent zones, allowing full control of sound source and volume for each separate zone, were completed with the minimum of fuss.

Comcen's speedy, attentive service allowed the quarter of a million passengers using Leeds Bradford Airport each month immediate access to first class facilities
